1 Observe
information allowed by the transparency regime (T0–T3), dated t − 1
2 Choose donations
each researcher applies their strategy to the colleagues they know
3 Row safeguards
conflict of interest (S1), per-recipient cap (S2); excess to the pool
4 Flows
donations α R(t − 1) flow; mutual-flow (S3) and cycle (S4) discounts
5 Receipts and funding
R(t) = B + pool share + donations; K(t) = (1 − α) R(t)
6 Production
output from K; with feedback (λ > 0), visibility follows output
7 Audits and strategy change
audits and peer reports (S5); defection; imitation; mutation
8 Turnover and records
optional exit of seniors and entry of newcomers; outcomes recorded
next year
